

M6: Web in a Box

- I'm using a project I created over the summer
 - <https://github.com/SamAnne/CompApp/tree/assignment>
- Created the docker containers for the application

Appreciation

One way to use this application is to show appreciation by providing food that fits the needs of others! Whether it's a small get together or a party, this is a perfect way to find what fits for everyone.

Some Examples

- Throwing a party for guests with certain restrictions
- Bringing food to a work get together
